

## Congratulations to Jill Teeters, our 2009 New Hampshire Top Walker!

**Jill's advice:** "Put the power of [marchforbabies.org](http://marchforbabies.org) to work for your fundraising! Having one central place to manage your team, ask for donations and send thank you messages was like having a "personal assistant" helping every step of the way. More and more people are getting comfortable with making donations online; so connecting your friends, relatives and colleagues to your Team Page makes it quick and easy for them to support this great cause with a click of a button."

## OTHER TIPS

- Encourage family, friends, co-workers etc. to not only donate to your team, but join your team!
- Challenge each member of your team to raise at least \$200.
- **Use 20/10 in 2010** - Ask 20 people for \$10 and you will have raised \$200!
- Personalize your online fundraising page. Use pictures and share your story.
- Include a fundraising badge that links people directly to your online page in your email signature line or on your social networking page.
- Ask your place of work to create a corporate team or sponsor an event
- Still need more ideas and suggestions to reach your goal?
