

## Bank of America Donates 150 Baskets of Baby Supplies to UConn Health Center Neonatal Intensive Care Unit

On Thursday, May 28, 2009, Greater Hartford Bank of America representatives donated 150 baby-themed baskets to the March of Dimes NICU Family Support Project at UConn Health Center in support of the project's initiative of providing comfort to families with babies in intensive care. Baskets included supplies and premie sized clothing.

Bank of America employees purchased or donated all items and crafted each individual gift basket. This is the third year that Bank of America employees have donated the baskets to UConn. In three years Bank of America has donated over 330 baskets to the program.
