mbritt@marchofdimes.com by Monday, November 3, 2008*

**Support and Information for Families:**

Each year, approximately 1 in 10 newborns is admitted to a newborn intensive care unit (NICU) in the United States.

Having a baby hospitalized in a NICU can be one of the most frightening, confusing and overwhelming experiences a family can have. To assist hospitals in supporting parents during this difficult time, the March of Dimes created **NICU Family Support® Centers** to provide information and comfort to families whose babies must spend time in a NICU.

The launching of the NICU Family Support® Center at Montefiore Medical Center confirms March of Dimes commitment to improve the health of infants by preventing birth defects, premature birth and infant mortality.
